PROCEEDINGS

1:00 p.m.

2 MR. GOSHERN: Good afternoon and welcome to  
3 the hearing on the proposed regulations for  
4 designation of routes for the through  
5 transportation of highway route controlled  
6 quantity shipments of radioactive materials.

7 For the purpose of the record today is June  
8 23, 1994 and it is 1:00 p.m.

9 The public hearing is being conducted in the  
10 city of Oakland in the CalTrans District office.

11 I am Lieutenant Mike Goshern from the  
12 Hazardous Materials Section, California Highway  
13 Patrol. The Hazardous Materials Section is  
14 coordinating the development of these  
15 regulations.

16 With me is Officer Kevin Livingston from the  
17 Hazardous Materials Section.

18 The purpose of this hearing is to accept  
19 public comments on the proposed regulations only.  
20 These regulations are being adopted pursuant to  
21 Section 33000 of the California Vehicle Code which  
22 mandates the California Highway Patrol to adopt  
23 regulations necessary to implement the through  
24 routing of highway route controlled quantity  
25 shipments of radioactive materials.

1           The federal government has established all  
2 interstate highways as approved routes. The  
3 California Highway Patrol is proposing to  
4 designate only certain specified routes necessary  
5 for the through transportation of highway route  
6 controlled quantity shipments of radioactive  
7 materials.

8           Copies of the proposed regulations are  
9 available for viewing on the table.

10           Please note that the CHP's authority in the  
11 proposed regulations are confined to the  
12 establishment of routes.

13           The CHP has no authority:

14           1. To prohibit the transportation of  
15 radioactive materials in general;

16           2. To decide whether or not we should have  
17 nuclear power;

18           3. To specify how radioactive materials  
19 should be transported, or;

20           4. To designate specific routes for pick-up  
21 and delivery of radioactive materials.

22           Therefore, we must ask that your comments be  
23 restricted solely to concerns specifically  
24 regarding the proposed regulations.

25           In order to allow equal time to all persons

1 providing comments during hearings throughout the  
2 state, we further ask that your comments be  
3 limited to approximately ten minutes.

4 Responses to the concerns raised during this  
5 hearing and those raised during the public comment  
6 period will be addressed in our final statement of  
7 reasons.

8 Please be assured, the CHP will carefully  
9 consider all comments and recommendations.

10 If you will sign-in on the attendance sheet,  
11 your name will be added to our mailing list and  
12 you will receive a copy of the final statement of  
13 reasons when released.

14 As a reminder, any interested person can  
15 submit written comments on the proposed  
16 regulations during any of the four public  
17 hearings. Supplies necessary to submit written  
18 comments are provided at the table.

19 Persons desiring to provide oral comments  
20 today were requested to notify us in advance and  
21 will be given the first opportunity to be heard.  
22 Any other persons wishing to provide comments will  
23 also be given the opportunity to do so.

24 If you wish to testify today and have not  
25 already notified us, please complete the "request

1 to testify" form on the table at the back of the  
2 room and provide the completed form to the  
3 transcriber.

4 Are there any questions regarding the  
5 instructions I have just read or on the  
6 instruction sheet that has been handed out?

7 It is now 2:00 p.m. and we are going to  
8 conclude this hearing.

9 For the purposes of the record, we didn't  
10 have anyone provide public input regarding these  
11 regulations.

12 (Whereupon, the proceedings  
13 concluded at 2:00 p.m.)
